

## For heroes -THE BEST

### SUSTAINABLE FASHION WITH CONFIDENCE GUARANTEE

**MORE INFORMATION AT G-K.EU/GREIFF** 

Modern and comfortable styles, practical features and fresh colours: you can expect all that and more from our new GREIFF CARE collection. Whether you work in nursing, a doctor's surgery, a pharmacy or a wellness oasis, these high-quality, carefully thought out designs allow you to give your full attention to the health and well-being of your patients and customers. GREIFF CARE doesn't just feel good - as "Grüner Knopf"-certified medical apparel, it is also good for people and the environment.

What's behind the government label introduced in 2019 that decorates numerous products of our new GREIFF CARE? The primary goal behind the introduction of the "Grüner Knopf" label is to provide greater transparency and perspective in the confusing jungle of labels. A total of 46 criteria relating to ecology and human rights are reviewed for this process - every detail along the supply and production chain counts, from cutting to sewing to bleaching and dyeing!

Modern style, functional yet extremely comfortable - can it be true? It can! GREIFF CARE combines all that, is sustainable and comes in five great colours.

# Together for a better FUTURE

#### THAT'S WHAT WE DO

You carry a huge amount of responsibility for the good of others in your everyday work life. As a company with over 200 years of history, we are also committed to the future of our fellow humans. As such, our focus is on providing a safe workplace for every employee in the production process, conserving natural resources like water, fair trade and the highest possible level of transparency for the path of each article of clothing, from raw material to finished product. We've chosen to utilise all the scope of action available to us for the benefit of people and the environment. Here you can find an overview of our partners and certificates with which we advocate for improvements:

#### myGREIFF.de

At myGREIFF.de you can trace the whole process that went into making your product – from the fibre to the finished item of clothing. You can see where the raw materials used for your product came from and where they were processed.

Grüner Knopf is a state seal for sustainable produced fabrics. It sets binding requirements to protect people and the environment. A total of 46 demanding social and environmental standards must be met. All models are labelled as such.

A sustainable, social responsible and environmentally friendly production without the use of harmful chemicals is more than important to us. MADE IN GREEN by OEKOTEX® includes ready-made clothing and every step of the chemical wet treatment and therefore combines the requirements of the STANDARD 100 by OEKO-TEX® and STEP by OEKO-TEX®.

With Fairtrade certification, we promote fair labour conditions, the prohibition of child labour, stable minimum prices, long-term trade relations in the area of cotton production and the transition to environmentally friendly agriculture. All the models containing Fairtrade-certified cotton are labelled as such.

We are a member of the Fair Wear Foundation (FWF). By enforcing this organisation's labour standards at our production facilities, we are continuously improving the local people's labour and social conditions.

We make use of STANDARD 100 by OEKO-TEX, a standardised and independen certification system for textile products. This stands for textiles which have been tested for harmful substances and products that pose no risks to health.

We are a co-founder of the association MaxTex. Together with our partners, we develop innovative product solutions all the way through to making a circular economy possible – and we do so transparently, honestly and sustainably.

We belong to the Partnership for Sustainable Textiles, which was initiated by the German government in 2014. This serves as a platform for dialogue between industry players and the field of politics. Together with the other partners, we set goals to improve sustainability throughout the production chain.
